Forecast for Wednesday 27 Jul 2022

Weather: A cool start, possibly some mist in valleys at first, but steadily warming up under mostly clear skies. Under strong sunshine cloud bubbling up during the course of the late morning and early afternoon, perhaps with an isolated risk of a light shower. High and medium level cloud increasing from the west late in the afternoon.

Chance of cloud-free hill tops above 600m: 100%

Low cloud and visibility: Excellent visibilities throughout the day with only temporary reductions in any showers. Cloud bases well above the level of summits throughout the day.

Forecast for Thursday 28 Jul 2022

Weather: Rather cloudy overnight and staying that way through Thursday morning. Remaining cloudy during the afternoon with skies breaking a little giving some bursts of sunshine before the end of the day. There is a low risk of isolated showers during the afternoon, diminishing into the evening.

Maximum wind: Variable winds 5-10 mph with isolated gusts to 15 mph.

Chance of cloud-free hill tops 600m: 70%

Low cloud and visibility: Cloud bases mostly above the level of summits throughout the day, however bases dropping occasional towards 800-900m limiting visibilities on some of the highest summits such as Corn Du and Pen Y Fan at times. Good to excellent visibilities below the level of cloud with distant hills visible throughout the day, with temporary reductions in any showers.

Temperature: **Valleys:** Plus 6 Celsius becoming plus 21 Celsius.
At 600m: Plus 4 Celsius becoming plus 12 Celsius.
Freezing level: Well above the summits.
